

For Immediate Release:

GLASS TECHNOLOGY DECLARES WINNER OF \$1,500.00 LAS VEGAS GIVEAWAY PRIZE

Date Released: Friday, March 13, 2009

Source: Glass Technology, <http://www.gtglass.com>, gt@gtglass.com

Glass Technology is proud to announce that the winner of the Diamond Clear Las Vegas Giveaway has been announced, and the prize (worth \$1,500.00) has been claimed from our website: <http://www.gtglass.com/site/Specials.html>.

Don Dickson, a happily married stepfather of two, and independent proprietor of *Glass Technology Windshield Repair and Headlight Restoration of Southern Arizona* opted for the cash option from the Las Vegas Giveaway, rather than the trip to Las Vegas. To quote Mr. Dickson: “I do not need a vacation... since owning my own business and working in this field feels like vacation all of the time.” Instead, Mr. Dickson told Glass Technology that he plans to invest the cash by purchasing a Glass Scratch Removal System: the Scratch Hog™, in order to diversify his services to include scratch removal—something he has been looking to delve into after the success of adding headlight restoration service to his business about 5 years ago.

Performing windshield repair for over 18 years, Mr. Dickson has been a Glass Technology customer for about 16 of those years with more than 50,000 windshield chip or crack repairs under his belt. His opportunity to become sole proprietor for his repair business finally came after working for a repair and replacement shop for two years. After gaining field experience with fleet accounts and retail customers as a windshield repair technician, Don called Glass Technology, opened his own business, and has been keeping customers happy in Southern Arizona for almost two decades. Don’s mission statement as a business owner is simple: “I give all I have into anything I do.” Based on the success of his business, he seems to meet that goal handily with his loyal customer base. Don also volunteers some of his free time as a moderator for Glass Technology’s Windshield repair forum: <http://www.glass-repair-forum.com> and stays active in other repair and restoration industry forums. He offers his advice, experience, and expertise to anyone that wants it. Mr. Dickson divides the rest of his free time between clay target shotgun sports, darts, and spending time with family.

Glass Technology looks forward to training Mr. Dickson in the art of scratch removal in the upcoming months, congratulates him on his prize, and wishes him the best of luck in future diversification of his services!
