

For Immediate Release: Glass Technology Celebrates 25 Years of Innovation

Glass Technology is proud to announce its 25th year in business. In the present competitive environment this milestone is a testament to Glass Technology's commitment to the windshield repair industry. Glass Technology has been an innovator of windshield repair and scratch removal equipment including the Maxim[™], Spectrum[™] and Scratch Hog[™]. In celebration of 25 years of business, new advancements will be released to the windshield repair industry during the 2009 season (visit www.gtglass.com). These advancements will change current windshield repair methodology and will further improve the standards for safety and environmental sustainability of the Auto Glass industry.

"We look forward to 25 more year of continued innovation for our customers. Providing high quality solutions for the windshield repair and glass restoration markets will be our primary focus moving forward". Rory Most – General Manager
