To Our ACI auto glass Customers:

Everyone in our industry is painfully aware of the significant cost pressures we have all suffered over the last few years. We have incurred increased costs in all facets of our business, including energy, labor, and operating costs overall. At the same time, market pressures have not allowed prices to offset these increased costs.

Like everyone else, the time comes when we can no longer continue to absorb these cost increases. Consequently, we at ACI are forced to announce a 3% price increase on auto glass parts effective with orders received on April 10, 2006.

As always, we will continue to work hard for you, and do our absolute best to earn your business. Thank you for your continued support.
