Robert Birkhauser Interviewed on Business Radio Show

Robert Birkhauser, President, AEGIS® Tools International, Inc., Madison, Wisconsin, was a guest on the radio show “IN BUSINESS with Jody and Joan.” on Monday, August 18, 2008. The interview, broadcast on Madison 1670 AM, focused on the challenges of running a small, worldwide business in today’s economy.

The interview also covered Birkhauser’s transition after the sale of Auto Glass Specialists, Inc. to Belron, Inc. Birkhauser, a well-known Madison business executive and community leader, talked about the differences in running a large corporation and small business. “I’ve always used a team approach, but there is less delegating now,” said Birkhauser. The biggest challenges? Rising health care costs and, recently, rising material costs. AEGIS® has seen significant increases in steel, aluminum and foam costs.

AEGIS® Tools International, Inc. is an industry leader in designing windshield repair systems and auto glass replacement tools, and in supplying top-quality auto glass replacement and repair products to professionals in over 50 countries around the world. The company focuses on designing tools that promote safety and efficiency for the technician, and safe installations for consumers. AEGIS® recently introduced the SOLO™ II Windshield Setting Tool.

The entire interview is available on podcast at www.madison1670.com starting August 19, 2008. For more information about AEGIS® Tools International, Inc. visit www.aegistools.com.
