

Delta Kits, Inc. Provides Clean Water for Christmas

Gross revenue from sales of Delta Kits products to be donated to charity!

Eugene, OR December 18, 2009 - From December 21st through December 25th Delta Kits will donate 100% of its gross revenue from sales to Living Water International.

According to the World Health Organization more than 3.4 million people die as a result of water related diseases every year, making it the world's leading cause of disease and death. Most of these are young children who die as a result of illnesses caused by organisms that live in water contaminated by raw sewage. It is estimated that in many countries \$10 will provide clean water to one person for a lifetime.

"This is something we can do something about", states Brent Deines, president of Delta Kits, Inc. Every month Delta Kits donates a significant percentage of company profits to help drill water wells in third world countries all over the world, but this year from December 21st through December 25th all proceeds from retail product sales will go to what Deines refers to as "a very worthy cause".

Deines credits Delta Kits employees and customers for an exceptionally profitable year that allows the company to provide the much needed charitable contributions. "I am blessed to work with a very generous and compassionate group of people", says Deines. "It's very rare and refreshing to find employees and customers so loyal."

Winding up the company's 25 year anniversary with a charitable event held during the week leading up to Christmas seems fitting for Delta Kits. "I'm pretty sure God wants us to share some of the good fortune he has provided us this year", concludes Deines.

More information about Living Water International can be found by visiting the company's website at <http://www.water.cc/>
