GLASS MECHANIX BEGINS CORPORATE RE-BRANDING EFFORT WITH NEW LOGO

*Glass repair equipment manufacturer and distributor moves toward new corporate brand
driven by GlasWeld Management Solutions*

25 February 2009 (Bend, Oregon) –Glass Mechanix, an auto glass repair equipment and supply company, today unveiled a new corporate logo which is the first step to a complete re-branding for the company. The logo, which features an auto racing theme, has been unveiled with a new corporate tagline “Setting the Pace in Auto Glass Repair.” The new logo can be viewed at <http://www.glassmechanix.com/2009>

The primary color element in the new logo is red, which symbolizes the company's energy and dynamism. The logo, along with other upcoming branding elements, embodies Glass Mechanix’s renewed commitment to serving customers efficiently and professionally on all levels.

“To us, car racing is a sport that continually displays top performance, and that’s one reason why we chose a racing theme for the new logo,” said John Kiland, owner of Glass Mechanix. “By capturing this theme with the universal black and white checkered finish flag, and a sense of movement within the type itself, GlasWeld Management Solutions is helping us move forward into the newest phase of our company.”

The new logo and corporate tagline are the first step in a complete rebranding effort for Glass Mechanix, which will be represented on its Web site at www.glassmechanix.com and in other promotional materials. The re-branding effort was brought about through the company’s new relationship with GlasWeld Management Solutions, a division of GlasWeld that focuses on the complete management of glass-related businesses. The company also provides full branding and marketing services for its clients.

Glass Mechanix can be reached by calling 800-826-8523 or visiting <http://www.glassmechanix.com>.
