GLASWELD GLASS RESTORATION EQUIPMENT FEATURED ON DIY NETWORK

Glass scratch removal and auto glass repair equipment chosen as DIY Cool Tools

16 December 2008 (Bend, Oregon) – GlasWeld, a complete solutions provider for the [glass repair](#) industry, recently welcomed a film crew from the Do-It-Yourself Network (DIY), which will feature two of GlasWeld’s flagship products on its national “Cool Tools” television show. Cool Tools gives viewers an insider’s look at the newest innovations in the tools marketplace, featuring design, development, demonstrations and testing of the coolest tools available.

DIY contacted GlasWeld about its Gforce Scratch Removal System and G3fusion Auto Glass Repair System – both used for repairing and restoring damaged glass. Although GlasWeld products are not necessarily marketed to the “do-it-yourselfer,” the program is a great way to showcase all the features and benefits of the glass repair systems.

“We have put more than 25 years of research and testing into the development of our glass repair systems,” said Mike Boyle, president of GlasWeld. “They really work to save glass – restoring it and keeping it out of landfills. To be approached by a national, highly respected program on DIY Network gives us added confidence that we are moving in the right direction with our products.”

A DIY film crew from High Noon Productions came to GlasWeld’s Bend, Oregon headquarters last month to film the equipment being manufactured, conduct interviews and capture product demonstrations. The products will be featured on television and on the network’s Web site at www.diynetwork.com in the spring of 2009.

About GlasWeld

Based in Bend, Oregon, GlasWeld provides complete glass repair solutions—from revolutionary equipment to unparalleled training programs and technical support—for both flat glass and auto glass. The company’s flagship *Gforce* Scratch Removal System for glass scratch removal and *G3fusion* Auto Glass Repair System for windshield repair are distributed worldwide through an international distribution network. GlasWeld’s product lines have been developed based on decades of industry research, development and customer feedback. Because glass repair is intrinsically sustainable, GlasWeld has integrated creative, tangible environmental initiatives into its daily operations, including ongoing education for the greater glass industry. For more information, visit glasweld.com or call 800-321-2597.

About DIY Network

From the makers of HGTV and Food Network, DIY Network is the go-to destination for rip-up, knock-out home improvement television. DIY’s programs and experts answer the most sought-after questions and offer creative projects for do-it-yourself enthusiasts. One of the fastest growing digital networks and approaching 50 million homes, DIY’s programming covers a broad range of categories including home improvement and crafts. DIY’s award-winning Web site, www.DIYnetwork.com, is a leader in the Nielsen//NetRatings’ Home and Garden category. The site features broadband video channels including home improvement, crafts, automotive, gardening, and woodworking along with step-by-step instructions totaling more than 20,000 projects online.
