Annual Conference Pre-Registration Opening Soon
NWRA CONFERENCE, WINDSHIELD REPAIR OLYMPICS
RETURN TO AUTO GLASS WEEK @ NACE

Pre-registration for the National Windshield Repair Association (NWRA) annual conference and second annual Windshield Repair Olympics (WRO) will open next Friday, June 15. NWRA members who missed the event last year have another chance to join the NWRA and others in what has fast become one of the most important industry events—Auto Glass Week @ NACE.

The NWRA Annual Conference will take place at the Mandalay Bay Convention Center in Las Vegas on November 2, and this year, the association becomes an official co-sponsor of the Repair Olympics, which will return to the NACE show floor for the second year in a row. The Repair Olympics will take place the day before on Thursday, November 1.

Additionally, the NWRA is preparing another strong line-up of educational seminars for attendees, as well as access to additional auto glass events taking place in the same venue as part of Auto Glass Week™. The conference kicks off at 8 a.m. on Friday, November 2 with the official event opening and welcome and will continue with seminars covering topics ranging from new services and benefits to “Boosting Your Bottom Line.”

“It makes perfect sense for the NWRA to hold our fall conference during Auto Glass Week @ NACE, because it is becoming the must attend event in the auto glass industry. Our members receive a lot of information and event access for their conference registration fee” said Patrick Smith, director of operations for the NWRA.

To register, visit www.nwrassn.org. Pre-registration opens June 15 and runs through October 12, 2007 at 5 p.m. EST.

The NWRA is a not-for-profit trade association organized in 1994 to promote the legitimacy of the windshield repair industry. The NWRA provides a forum for the exchange of ideas between its members and provides the public, industry and government with a reliable source of information regarding windshield repair. The NWRA also organizes, at a grass-roots level, campaigns to influence the governmental agencies responsible for establishing regulations for the windshield repair industry.
