VITRO AMERICA AND CERTAIN OTHER U.S. SUBSIDIARIES OF VITRO THAT ARE PART OF VITRO AMERICA GROUP ASK COURT TO ENTER ORDERS FOR RELIEF AND ENTER INTO ASSET PURCHASE AGREEMENT WITH PRIVATE EQUITY FIRM

- **Sale to be Implemented Pursuant to Voluntary Chapter 11 Proceedings, Subject to Court-Supervised Auction for Higher or Better Offers**

- **Vitro America to Conduct Business in the Ordinary Course During Sale Process, Receives Commitment for $37.5 Million of Financing**

San Pedro Garza García, N.L. México.- April 6, 2011.- Vitro S.A.B. de C.V. (“Vitro or the Company”) announced today that its subsidiary Vitro America, LLC (“Vitro America”), a leading fabricator, distributor and installer of glass in the construction and automotive replacement markets in the United States, announced that it and three other U.S. indirect subsidiaries of Vitro, that are part of the Vitro America Group (“Vitro America Group”), including Super Sky Products Inc., have filed a motion asking the U.S. Bankruptcy Court for the Northern District of Texas to enter of orders for relief for the four subsidiaries under Chapter 11 of the U.S. Bankruptcy Code. Vitro America and its affiliated movants have also entered into an agreement to sell substantially all of the assets of Vitro America and Super Sky to an affiliate of Grey Mountain Partners, LLC, a private equity firm based in Boulder, CO.

The bankruptcy court’s orders for relief for Vitro America Group are expected to be entered today. The entities that have requested entry of the orders for relief are Vitro America, LLC; Super Sky International, Inc.; Super Sky Products, Inc.; and VVP Finance Corporation.

Vitro America and Super Sky have also announced that they will be filing a motion with the court seeking authorization to obtain $30 million in debtor-in-possession (“DIP”) secured financing from their pre-petition lender, Bank of America, as well as an additional $7.5 million from Vitro to free up liquidity under the DIP funding. Vitro America and Super Sky intend to use their current cash availability and the DIP funding to fulfill their post-petition ordinary course obligations to employees, customers and trade vendors as they come due during the sale process.

“Vitro America Group has faced important challenges related to the financial crisis that began during the second half of 2008 which lead to a sharp decline in commercial construction in the United States,” said Hugo Lara, CEO of Vitro. “While analysts expected a rebound in commercial construction, as of today, there are no clear signs of a recovery. As a result, Vitro America had a negative cash flow from operation in 2010. In addition, the severe negative impact of the involuntary petitions filed by certain bondholders has accelerated the deterioration of the business.”

“Having Vitro America enter into a Chapter 11 procedure, will allow it to adequately restructure itself, to benefit from a future construction market recovery. Vitro considers Vitro America a strategic business. Accordingly, we are considering participation through the sale process under Chapter 11 which could allow us to capture future value when the market experiences a recovery" concluded Mr. Lara.
