FOR IMMEDIATE RELEASE

Mitchell releases new version of *GlassMate*

SAN DIEGO, January 2, 2007 – Mitchell Glass, a division of Mitchell International, has released GlassMate® Version 5.4 to the Auto Glass market.

Now GlassMate™ customers can order parts directly from GlassMate for distributors that partner with GLAXIS™ Technology, including PPG Auto Glass, Old Dominion Glass, Bartelstone Glass, and Independent Glass Distributors. In addition, the new release of GlassMate includes enhanced management reporting and many other efficiency improvements.

“This release of GlassMate will offer our customers yet another leap forward in efficiency and productivity. With integrated ordering through GLAXIS™, retailers can quote, schedule, order parts, and invoice without ever leaving the GlassMate software”, said James Patterson, Director of Glass Product Management at Mitchell International. “GlassMate customers will continue to see improvements in their results as their operations become more streamlined.”

More information about *GlassMate* software is available at www.nags.com or by calling (800) 551-4012.

About GlassMate

GlassMate software, a leading point-of-sale system for the auto glass repair and replacement industry, delivers efficiency and automation to the AGRR market. Ease of use and world-class customer service are only some of the reasons that thousands of shops have chosen the *GlassMate* software. More information about *GlassMate* software is available at www.nags.com or by calling (800) 551-4012.
